Sub: Quotation for Artificial Silicon Resuscitator.

Dear Sir,

Thank you very much for your interest in our Artificial Silicon Resuscitator.

(Our prices are in USD FOB Delhi Each Unit)

Artificial Silicon Resuscitator - Adult - USD 18.30 each unit

Item Code: MEI - 5001

Artificial resuscitation equipment silicon - Adults, silicon, mask n ° 4,
oxygen tube and reservoir bag in a briefcase. Capacity: 1600 ml

Construction material: Silicon

Technical Specification:

Bellow Capacity: 1600 ML.

Oxygen reservoir bag Capacity: 2600 ML

Mask size: 5 No.

Oxygen tube length: 1.5 Mtr.

Color: white.

Usage: resuscitators:

Compact silicon emergency resuscitators breathing. These are made of silicone rubber and can be sterilized up to 136 ° C. Supplied with mask, oxygen and oxygen reservoir tube. This equipment is used in all general hospitals.

Measuring cartoon

Cartoon size - 55 X 46 X 52 Cmt

Total - 31 units.

Total weight: about 21 kgs.

Therefore, a cartoon character that has a size of 55 X 46 X 52 Cmts containing 31 units and the total weight (including the weight of cartoons) will be approximately 21 kilograms.

Artificial Silicon Resuscitator - Child - USD 16.30 each unit

Item Code: MEI - 5002

Artificial silicone Resuscitator - Children, silicon, mask 1, oxygen tube and reservoir bag in a briefcase. Capacity: 500 ML

Construction material: Silicon

Technical Specification:

Bellow Capacity: 500 ML.

Oxygen reservoir bag Capacity: 700 ML

Mask size: 2 No.

Oxygen tube length: 1.5 Mtr.

Color: white.

Usage: resuscitators:

Compact silicon emergency resuscitators breathing. These are made of silicone rubber and can be sterilized up to 136 ° C. Supplied with mask, oxygen and oxygen reservoir tube. This equipment is used in all general hospitals.

Measuring cartoon

Cartoon size - 55 X 46 X 52 Cmt

Total - 50 units.

Total weight: about 21 kgs.

Therefore, a cartoon character that has a size of 55 X 46 X 52 Cmts containing 50 units and the total weight (including the weight of cartoons) will be approximately 21 kilograms.

Artificial Silicon Resuscitator - Infant - USD 14.30 each unit

Item Code: MEI - 5003

Artificial silicone Resuscitator - Children, silicon, mask No 0, oxygen tubing and reservoir bag in a briefcase. Capacity: 250 ML

Construction material: Silicon

Technical Specification:

Bellow Capacity: 250 ML.

Oxygen reservoir bag Capacity: 500 ML

Mask size: 1 No.

Oxygen tube length: 1.5 Mtr.

Color: white.

Usage: resuscitators:

Compact silicon emergency resuscitators breathing. These are made of silicone rubber and can be sterilized up to 136 ° C. Supplied with mask, oxygen and oxygen reservoir tube. This equipment is used in all general hospitals.

Measuring cartoon

Cartoon size - 55 X 46 X 52 Cmt

Total - 60 units.

Total Weight: approx 22 kg.

Therefore, a cartoon character that has a size of 55 X 46 X 52 cms containing 60 units and the total weight (including the weight of cartoons) will be approximately 22 kilograms.

Delivery time: within 10 days after receiving the order confirmation.

Should you require further clarification, please do not hesitate to contact us.

We sincerely look forward for an opportunity to kick-start a mutual beneficial business relationship.

Regards,
Pramod
